SOFT N' SAFE

LOW ALLERGY, ALL-NATURAL HAND CLEANER

Triple7 Soft n' Safe is an all-natural, liquid hand cleaner that is not a soap, detergent or petroleum solvent. **Triple7 Soft n' Safe** is a homogeneous compound containing plant-based, non-ionic surfactants that are formulated to create a powerful cleaning action. The product penetrates and 'lifts-out' oils, grease, dirt and general grime. **Triple7 Soft n' Safe** cleans hands and arms and is suitable to use on sensitive skin.

Contents

Triple7 Soft n' Safe is made from plant-based ingredients and is readily biodegradable. The product does not contain toxic additives such as caustics, phosphates, petroleum products, terpenes, lauryl sulphates, builders, synthetic glycol ethers, ammonium compounds, or volatile organic compounds (VOCs).

Application

Triple7 Soft n' Safe is completely soluble and free rinsing with water and it is safe to use on the face, hair, and all extremities. The product leaves the skin clean and soft, though mild defatting may occur with repeated use. Therefore it is recommended that a lanolin hand lotion be used to restore natural skin fats. **Triple7 Soft n' Safe** contains Vitamin E from Jojoba oil and Aloe Vera gel to aid in softening cuticles, nails, and chapped, hardened skin. **Triple7 Soft n' Safe** is an excellent cleaner for the hands of mechanics, oil field workers, and any other person whose hands get extremely dirty or stained.

Just rub the full strength **Triple7 Soft n' Safe** into hands, add a little water, and rub hands together. Allow a few seconds before rinsing thoroughly. Repeat if necessary. Rub **Triple7 Soft n' Safe** into hands before beginning a greasy or dirty job to keep the skin from absorbing most oils, grease and grime, making cleaning easier and quicker.

Triple7 Soft n' Safe comes ready-to-use and it may be dispensed through a wall-mounted pump dispenser or a hand pump.
