

Parts Washer Upgrades

Immediately save on solvent costs and turn your existing parts washer into a **purasolve** recycling parts washer. Retrofit kits are available to suit most existing parts washer makes and models.

purasolve Retrofit Filter Kits turn ordinary parts washers into cost saving recycling parts washers, for a fraction of the price of a complete new unit.

Upgrading your parts washer will enable you to get the most out of our **purasolve** range. With a **purasolve** Retrofit Filter Kit you will have a minimum solvent life of 18 months, whilst also eliminating workshop hazards associated with parts cleaning.

Combined with **purasolve** Parts Cleaner solvent our Retrofit Filter kits can dramatically reduce the costs and WHS risk associated with solvent usage and waste compared to traditional parts washing units. Typical savings can amount to \$2000 - \$5000 / year plus additional savings on heating costs.

Speak to one of our experts today and start reducing your costs tomorrow!
