

ACTIRESIST

HEAVY DUTY INDUSTRIAL METAL CLEANER & DEGREASER

Powerful Cleaner and Degreaser

ActiveEco ActiResist is a high-tech multi-action cleaner and degreaser developed for removing pindan, tough soil and grease build-ups on metal, oxidised paint, and masonry surfaces.

Applications

For Professional Use Only

ActiveEco ActiResist is designed for use as a powerful cleaner and degreaser in heavy industries.

Excellent in applications such as:

- Vehicle & equipment maintenance
- Shower blocks
- Mechanics
- Building cleaning & development
- Rail
- Tanks & shipping containers
- Aviation
- Pindan removal
- Any metal cleaning application

Benefits

- Radical cleaning strength
- Powerful combination cleaning action
- Effective on a wide spectrum of soiling and greases
- Removes pindan
- Low-odour formula
- Highly-concentrated

ActiveEco ActiResist effectively cleans and brightens metal and oxidised painted surfaces. It powerfully removes petroleum-based greases, dirt, fatty materials, environment soiling, diesel fumes, oils, greases, and other contaminants from almost any hard surface.

ActiveEco ActiResist can also be used for deoxidising dull, soiled and blemished metals, restoring, and brightening metals to their original lustre.
