

MS

PLANT-BASED EVAPORATIVE SOLVENT

Worksafe, Eco-Friendly Industrial Solvent

Purasolve MS is a plant-based evaporative solvent that provides superior cleaning power with fewer workplace risks. It is designed to be effective against heavy-duty staining.

- Replaces common solvents
- High-solvency cleaning power
- Effective across many applications
- Reusable for cost savings
- Readily biodegradable
- Environmentally responsible

Applications

Purasolve MS is formulated to tackle heavy-duty cleaning jobs without damaging most elastomeric, metal, and plastic surfaces.

It effectively removes:

- Gum
- Adhesives
- Epoxy
- Silicone
- Dried lubricants and fuels
- Paint
- Most waxes
- Urethane sealants
- Ink

Benefits

- Replaces toxic products - reduces workplace risks compared to traditional industrial solvents
- Reduces costs - reusable to reduce cost and waste
- Eco-friendly - does not contain ozone-depleting chemicals
- Safe for the environment - 100% readily biodegradable
- Regular disposal - safe for landfill disposal once expended
