# PRECISION CLEANER

## WORKSAFE ELECTRICAL CONTACT CLEANING SOLVENT

**Purasolve Precision Cleaner** is a versatile, industrial-strength cleaning solution that is specially formulated to remove tough contaminants and residue from a variety of surfaces.

**Purasolve Precision Cleaner** is safe for use on sensitive electronic equipment, making it an ideal choice for use in manufacturing and other industrial settings.

### Applications

- Motors
- Switches
- Relays
- Circuit boards
- Electronic components

### Directions for Use

**Purasolve Precision Cleaner** is used neat in a soaking application, applied applied via a lint free cloth or by spraying directly onto the surface being cleaned.

For a quick dry surface, air blast or wipe off with a dry lint free cloth.

### Benefits

- Slow evaporating for extended cleaning time
- Lasts 10 times longer than other solvents
- High dielectric strength and residue-free finish
- Better for your health, safety and the environment
- 100% free of dangerous Chlorinated or Halogenated solvents
